Your Nikon spectacle lenses, **custom-made to your vision**

Lens Care Guide

To prolong the life of your Nikon lens coating and prevent against scratches:

- Avoid leaving your lenses in places where the temperature changes rapidly or in high heat temperatures. This includes things such as;
 - leaving your spectacles on the car dashboard
 - wearing spectacles whilst using a hair dryer etc.
 - wearing your spectacles in a sauna
- Please clean your lenses immediately if they come into contact with any abrasive substances, this includes, detergents, cosmetics and hairspray etc.
- When cleaning your lenses, always use a microfibre lens cloth.
- Only use cold water from the tap alongside your microfibre cloth when cleaning your lenses.
